What is the key benefit that you offer your members? Is it a service, a product, or something else?

What are the biggest challenges in your market and C&D recycling?

What do you find most rewarding about working in this industry?

What is your most memorable recycling project? What do you do with your finished product? Fortunately, our primarily recycling activities right now are residential, where we are located in a growing area.

In my years of involvement the biggest problem is the end markets. What do you continue to be involved in? As I got older, my love for the industry continued, evolving into land clearing jobs, and eventually moving into the C&D field.

As a youngster I like to play with Tonka trucks. What do you remember as a kid?

What do you think is the future of recycling? What do you see coming up on the horizon are more automation, robotics, and more robotics.

I enjoy my golf, and playing football which I have enjoyed doing for the past 10 years. What are your hobbies?

I've enjoyed being a part of the C&D industry for the past 20 years. What challenges have you faced over the years and how have you been involved in it? It's not how much money you have involved. As in anything in life, the more you put into it, the more you get out of it. I have learned in the contracting business, "It's not how much money you have"

But, I've been involved in the C&D industry for the past 20 years. In my years of involvement the biggest problem is the end markets. What do you continue to be involved in? As I got older, my love for the industry continued, evolving into land clearing jobs, and eventually moving into the C&D field.
