Tech Forum 10 – Van Dyk Recycling Solutions
Tech Forum 9 – Fire Rover
Tech Forum 8 – Machinex
Tech Forum 7 – Starlight
Tech Forum 3 – Torxx
Tech Forum 2 - General Kinematics
Tech Forum 1 - Komptech Americas & Plexus Recycling

We're excited to share that many of the sessions from this year's C&D World will be open to members. These sessions are also open to all interested parties. You will join WasteExpo at the leading solid waste and recycling event in North America, June 28-30, 2021 in Las Vegas.

The current movement to put more emphasis on environmental justice (EJ) concerns has led to the formation of a Task Force on Environmental Justice, which will be headed by Caitlyn McKissick of Cherry/Arcosa. The tenets of environmental justice (EJ) include the belief that human health is a human right, and that humans have the right to determine what is in their communities, including what happens in and around them. Recycling is a powerful tool for EJ.

Recycling businesses will grow. Recycling and the creation of jobs in the recycling industry can be a powerful tool for EJ.

Education and data are a large opportunity for the C&D market. Understanding the end markets that exist. The end markets for materials that we process are a huge opportunity. We are focused on the market for non-ferrous metals, wood, concrete and more. We work to make recycling still remains a mystery to many, both in the general public as well as industries. And some communities are never going to grant entry to specific types of industries (and might even work to remove what is already there). Waste facilities fall around 60,000 TPY of C&D and we transfer brick, shingles as well as cardboard non-ferrous metals, wood, concrete and more. The stakes are high. We work with the community to ensure that there is a need and how to work with a community to answer these concerns.

We will be taking. It's "baked in," he said.

What do you find most rewarding about working in this industry?

I joined the CDRA not long after entering into the business which would make me a member for over 20 years.

How long have you been a member of CDRA?
